

Comfort & Visual Softness

The model features an integrated relax mechanism, which enhances comfort by allowing the seat position to be adjusted according to the desired level of relaxation. Due to the presence of soft padding, slight misalignments between seat sections may occur a physiological behavior resulting from the natural elasticity of the materials, and a sign of genuine comfort and softness.

The soft padding beneath the seat and back cushions adds a "soft-to-the-eye" appearance, conveying a sense of comfort and relaxed hospitality. This construction approach gives the sofa a warmer, more informal, and naturally "lived-in" look.

The integrated mechanism is designed to enhance comfort, allowing the seating position to be adjusted for a personalized sense of comfort. Each sofa is crafted with meticulous attention to detail, showcasing artisanal precision in every stitch and finish. Natural variations such as wrinkles or subtle marks are not flaws but distinctive traits of genuine leather, that highlight the evolving beauty of each piece over time.
