Modello depositato. Famiglia di sedute con struttura in metallo verniciato con polveri epossidiche o cromato. Il sedile e lo schienale in polipropilene termoiniettato contengono di serie l'additivo anti UV, anche nella versione autoestinguente. La possibilità di imbottire sedile e schienale amplifica il comfort della seduta, mentre lo schienale in rete ne esalta il design. laKENDÒ' è concepita per essere impilata agevolmente sia in verticale che in orizzontale. Il sedile ribaltabile è disponibile nei telai 4 gambe e ruote. L'ampiezza della gamma e degli accessori la rendono particolarmente adatta agli ambienti di lavoro, collettività, studio, spettacolo e contract.

Patented design. Family of chairs with epoxy-coated or chromed metal frame. The thermo-injected polypropylene seat and back, with UV treatment included as standard, also in the fire-retardant version. The option of upholstered seat and back adds extra comfort to the chair, whereas the mesh back acclaims the design. laKENDÒ' is designed for easiness in vertical stacking and horizontal nesting. The tip-up seat is available in all the 4-legged frame versions as well as on castors. The broad range of configurations and accessories makes it particularly suitable for use in the office, conference, educational, contract and public areas in general.
