GRAPHICS & ELEGANCE:  
STYLE IN A  
CONTEMPORARY  
INTERPRETATION

*création* **baumann**

Elegant and urban at the same time: Création Baumann's GRAPHICS & ELEGANCE home collection is synonymous for style that remains valid.

The textiles captivate with their understatement while at second glance, all the more clearly, their ingenious details become obvious. Radiant silk, taffeta and jacquard fabrics add a shine to your home, with graphical elements ensuring a contemporary impression. Conjuring up different vibes in the room are four colour spheres: silver grey, petrol blue, olive gold and mauve. Toile de Jouy celebrates its comeback with a reinterpreted design of metropolitan motifs and a pinch of irony. A collection brought to life by its play with contrasts combined into an exciting display.
